## INFOMAG

On the right, a collage of the different tools we've been using to communicate with our students during the lockdown.

### Issue 1 review by Seoyoung, Korea .

The most impressive article for me was 'Helen K meets ... Michael Phillips ' because he's been swimming since he was a kid , and by winning more than 20 medals at the Olympics , he feels like he's become the winner of his life . In particular, the last part was touching when he said ' Do your favorite things consistently and try to achieve your dream ' . from now on, I should be the one who doesn't feel discouraged and makes my dream come true

By Seoyoung, Korea

## eTwinning at home . eTwinning in times of school closure

As you all know, most of the schools in Europe, Asia and the rest of the world closed for several weeks because of the pandemic and lockdown. However, World Investigation partners have never ceased working on the project and managed to complete most of the tasks .No doubt that our eTwinning experience was a great help for online teaching as we are all very familiar with online platforms, visio conferencing, collaborative tools and social networks.

In this issue, you will be able to see the result of this work: the results of our second survey, our collaborative story beautifully illustrated by our students, a collaborative recipe book, sport pages , a page about traditional dresses, our celebrity page ,safe internet tips, a page about Greek festivities ,another one about Romanian legends, a history page and a presentation of the beautiful Jordan city PETRA and ..... of course a special feature about COVID 19.

As our schools are progressively opening again , we are nevertheless aware that the virus is still active in many parts of the world .We have a special thought for all the victims of this virus and their families and wish all our students,our partners, the whole etwinning community and every single person the best for the future .

Be safe , stay healthy!

# What city are we from?

**Petroupoli, Greece**  
**Irbid, Jordan**  
**Abraham, Slovakia**  
**Seoul, Korea**

## ▲ Petroupoli Greece

Petroupoli is a suburb of Athens, 8 km from the city center. It is expanded on 3 hills on the west side of Attica region. It has amazing view even to Acropolis and to Piraeus port. It is famous for the open theater created at the old town's pits. Petrou-Poli =Stone City

## Abraham, Slovakia

Abrahám is a village and municipality in Galanta District of the Trnava Region of south-west Slovakia.

## ▼ Irbid, Jordan

Irbid known in ancient times as Arabella or Arbela the capital and largest city of the Irbid Governorate. It also has the second largest metropolitan population in Jordan

## ◀ Seoul, Korea

Seoul is the capital city of Republic of Korea. Something is always going on in Seoul. Many people, brisk atmosphere, good food, history and culture. It's a big city with lots of various people in it.

# What city we are from?

**Ekali, Greece**

**Terni, Italy**

**Lysychansk, Ukraine**

**Đakovo, Croatia**

## Terni, Italy

Terni is a beautiful city in Italy, Umbria. This city was very important in the second world war, because there is a steelworks and a weapons armor. Terni is the city of love in fact the patron of the city is San Valentino, the Saint of love. In Terni you can visit some history monument, for example: sword palace, the spear of light, the bank of Italy.

## Đakovo, Croatia

Đakovo is a beautiful town in the heart of Slavonia. We are proud of our cathedral and the State Stud Farm.

## Ekali, northern suburb of Athens in Greece

It is a lovely rural area which is very green and full of trees. It is very close to downtown Athens which is a bustling metropolis, filled with historic landmarks. Athens is the heart of the Ancient Greek civilization.

## Lysychansk, Ukraine

Lysychansk is a town in Luhansk region in Ukraine. The nature is great and fascinating here. Welcome to Lysychansk!

# What city are we from?

**St Paul de Fenouillet, France**  
**Sancaktepe Istanbul, Turkey**  
**Galati, Romania**  
**Massa, Morocco**

## ▲ Saint-Paul de Fenouillet, France

Saint-Paul is located in the south of France, near Perpignan, in the département called 'les Pyrénées Orientales'. This small town is surrounded with vineyards and beautiful landscapes. It is well-known for its chapter house, its gorges and its tasty biscuits, the 'croquants'.

## ▶ Massa, Morocco

Massa town is located in a southern region of Morocco called Souss Massa. Massa Town is well-known for its beautiful beaches, landscapes and argan trees and the rare northern bald ibis.

## ▼ Abdurrahmagnazi İmam Hatip Ortaokulu Istanbul, Türkiye

Istanbul is a metropol city of Turkey. This city located on two continents; Europe and Asia. In other words, Istanbul is a city which links the 2 continents of Asia and Europe together. It has been a home to various religions, cultures and civilizations for centuries.

## ◀ Galati, Romania

Galati city is located in the Eastern part of România. It is located on the left bank of the Danube, at the confluence of the two rivers: the Siret and the Prut. The Danube waterfront is a green recreational area for walking, sports competitions and recitals.

# WORLD INVESTIGATION COLLABORATIVE STORY

eTwinning 2019-2020

The last chapters of our collaborative story are online on our [genial.ly](#) presentation.

Follow our heroes, John and Mary in their challenging adventures around the world. Will they manage to save our planet threatened by human pollution ?

Will they be able to face a terrible creature whose only aim is to destroy humanity?

**HAVE A LOOK AT OUR  
COLLABORATIVE BOOK  
IN ENGLISH (page 13)  
BUT ALSO IN ALL OUR  
LANGUAGES (page 16)**

## COLLABORATIVE STORY

### Here are the first paragraphs of part 7 by the Ukrainian team

Having looked at the burning firmament, Maria held the handrail of a small pleasure boat and breathed in the warm air, admiring the Arctic Ocean. Suddenly John shouted, “Maria, I see a child who’s floating on the great waves made from a pile of garbage!”. At this time her heart was overcome by worry, fear and it caused her to go into a panic. Maria hurried up to John. “John, save that poor child, please!”, Maria said tremulously. And that minute John jumped into the cold ocean because no one’s life is more valuable and important than that boy’s life. When John came out of the water, he carried the little boy in his hands, then put him onto the boat’s deck, and covered him with a fuzzy blanket.

Maria beheld a glowing horizon, thinking about parents who weren’t found, and she saw the floating mountain of trash. Since John noticed that about half an hour had passed, the child woke up unexpectedly. John asked with curiosity, “What happened to you?”. Coughing boy replied, “I was resting along with my family. It was a sunny day. I was sailing far away to find an island of my dreams. The dark clouds covered the heavens and at the same time a great storm blew up around. As soon as lightning had struck abruptly in our boat, the stormy waves rolled over and crashed it. Eh... I forgot what was further”.

(to be continued)

Each team has illustrated the chapter written by another partner. For instance the Romanian team has proposed illustrations for the chapter written by the Greek students, the Croatian team the chapter written by the French students.

# Extracts of our story in the different partners' languages

## ▲ TURKISH and FRENCH

John şişeyi eline alarak üzüntülü bir şekilde yatağına uzanmıştı. Bir yandan düşünüyor, bir yandan da planlar yapmaya çalışıyordu. Doğru yere nasıl gidecekti? Şişeyi incelemeye başladı.

.... Tout à coup le sol s'effondra et l'intégralité du grenier s'écroula. Mary était assommée mais elle reprit rapidement connaissance. La créature avait disparu mais John était là, entre la vie et la mort.

## ▼ ITALIAN and KOREAN

... ha incontrato molte delle altre persone che aveva conosciuto quando era bambino, ed erano morti. La fabbrica .... era l'origine di tutti i problemi. L'anidride carbonica, e la fuliggine, sono stati rilasciati ovunque.

“너희들은 함께 이 바다를 청소해야 해. 우선 John, 너는 우선 플라스틱을 모으고 그리고 나서 Marry는 캔을 모아야 해. 그것들은 나에게 나에게 가져와! 내가 그것들을 처리 할게.

## ◀ GREEK and UKRAINIAN

Ενώ τα παιδιά ακολουθούσαν το σκύλο μέσα από ένα σκιερό μονοπάτι με ψηλά δένδρα και στις δυο πλευρές ,ξαφνιάστηκαν από τη θέα των ρομπότ που άρχιζαν να τους περικυκλώνουν και καλώντας τους σε παράδοση .Εκείνη τη στιγμή ,το κροατικό σκυλί σταμάτησε να τρέχει.

Марія тримала поручень невеликого прогулянкового катера й дихала теплим повітрям, милуючись Північним Льодовитим океаном і спостерігаючи за розжареним небом. І раптом Джон закричав: "Маріє, я бачу дитину, яка пливе на великих хвилях із купи сміття!". У цей час її серце відчуло хвилювання, страх, і це змусило її впасти в паніку. Марія поспішила до Івана. "Джоне, врятуй бідну дитину, будь ласка!",

# Celebrating SID 2020

B21

Tuesday February 4, 2020

5 views | 1 comments  
Filed in Safer Internet

Στην σημερινή εποχή βλέπουμε πως τα παιδιά παραμελούν τα μαθήματά τους και μπαίνουν στα social media τα οποία μπορούν να τους καταστρέψουν την προσωπική ζωή τους.

Πρέπει οι γονείς να προστατεύουν τα παιδιά και να ελέγχουν για το πού μπαίνουν και περνάνε τον χρόνο τους γιατί μπορεί για αυτά να είναι κάτι διασκεδαστικό αλλά μπορεί να γίνει πολύ επικίνδυνο.

**Ciorbă de burtă (Beef Tripe Soup)**  
For a bold and brave experience when traveling abroad, you have to try one of the most popular soups in Romania – **Beef Tripe Soup**. While the name may not sound too appealing, it's a real delicacy and is sure to make your tongue dance. Considered the ultimate hangover remedy, Tripe Soup is made from the stomach of a cow, vegetables, and special bones, flavored with lots of garlic and soured with vinegar. Hot chili peppers go with it very well.

**EXPERT TALKS : --**  
**M. Hingray, a sport journalist in the region newspaper 'L'indendant' accepted to give us his opinion about our team.**

First observation, twelve players were selected. Only eleven will be on the ground. Then, I pity the coach who will have such a workforce. Because for the majority, all these players play in offensive positions. With the exception of goalkeeper Mandanda, there is barely one defender (Skriniar), two defensive midfielders (Hakimi and Rakitic) and the rest are attacking midfielders, attackers. Suffice to say that this will probably register a lot of goals but also cash a lot. Few workers and too many artists certainly. In short, a training in total imbalance. It is therefore not realistic because the players would "tread on their feet" on the opponent's half court. All the players play in contemporary teams, except Shevchenko, the Ukrainian, a legend in his country, Ballon d'Or 2004, retired from the pitch since 2012. As for finding a coach who would embark on such a challenge? None would take up the challenge, in my opinion because none would constitute such a workforce with so few defensive elements. Not even Klopp (Liverpool), Guardiola (Manchester City), yet champions of the offensive game. Therefore, I would not imagine this team winning any competition.

Δ Hingray

**World Investigation football team**

# What is rugby League?

RUGBY XIII

Rugby is a collective sport between two teams of thirteen players who compete for an oval ball in a stadium. The goal is to score more points than your opponent, either by hand by scoring tries or at the foot by scoring penalties or conversions.

Students from Collège Joseph Calvet introducing rugby league

Rugby is played with an oval ball

The object of the game is to score more points than your opponents in 80 minute time . Games may end as a draw.

Rugby is played with an oval ball .The team with the ball must move the ball up the field .. The ball can never be passed forwards but players can run forwards with the ball or kick the ball forward to chase it down.

There are two 40 minute halves with a 10 minute rest period in between. The goal posts are in an 'H' shape and are roughly 5 to 6 meters apart. The field must be roughly 100 metres long and 70 metres wide. Players wear studded boots, sometimes gum shields and head guards...

Points can be scored by four different ways: • A try • A conversion . A successful kickgoal. • A penalty kick

# Sport in our partners' countries by Collège J. Calvet

## Read and play the quiz!

Football is probably the most popular sport in Morocco but locals and tourists can also practice hiking, golf, camel and horse riding. Skiing is also possible in Moroccan beautiful mountains.

Picigin is a traditional water sport from Split, Croatia. It is played with a small ball. The objective of the sport is to prevent the ball from touching the surface of the water.

Oină is a traditional team sport played in Romania which has similarities to baseball. The sport is extensively played only in Romania.

Greece has a long and important history in the world of sport, being the original home of the ancient Olympic Games.

The number one sport in Slovakia is ice hockey.

Anastasiya Kuzmina is Slovakia's most successful Winter Olympic athlete, with three gold and three silver medals.

Korea's biggest contribution to the world of sports is Tae Kwon Do.

Jokgu is another Korean sport which is a mix of football and volleyball. It was 'invented' by Korean military as a pastime. Now, the sport is extremely popular in the entire country.

## PLAY THE QUIZ!

Jereed is a traditional Turkish team horseriding sport. The objective for players on each team is to throw wooden javelins at players of the opposing team.

As with most European countries, Ukraine places special significance to football. There are a number of Ukrainians in the football stage most notably Golden Ball Awardees Ihor Belanov, Oleh Blokhin, and Andriy Shevchenko.

Calcio fiorentino or calcio storico (historic football). It is an early form of football which was developed in 16th century Italy.

Jordan won their first official Olympic Games medal in 2016, Taekwondo fighter Ahmad Abu-Ghaush won the gold medal in the featherweight category.

# MY TRIP TO...

## 'MY TRIP TO' ACTIVITY BROADENS OUR STUDENTS' MINDS

Turkey, France, Jordan, Slovakia and Greece (Petroupoli) 's students dream their journeys and present in a different way.

**Terni, Italy**

**Cascata delle Marmore**

Located in the Parco Nazionale del Nera, the Marmore Falls is one of the finest outdoor attractions in the region surrounding Terni. Whilst this waterfall may look natural, it is actually man-made and stands as the tallest man-made fall in the world. The Romans created Marmore in antiquity and it has been used as a source of power and to fill the nearby Piediluco lake ever since. Marmore is a truly spectacular sight and it is possible to see the falls being opened - witnessing the water crashing through the gates is something to behold. Surrounding the falls is a series of trails and viewpoints from which you can explore the beautiful countryside.

**MY TRIP TO SEOUL** By Luc

When I go to Seoul...

- I will visit Seoul National Museum.
- I will eat Mandu Korea
- I will take photos of Dongdaemun Palace
- I will buy keychains
- I will go to Incheon park

**Čičmany - architecture/folklore**

- 1.)
- 2.)
- 3.)

In Istanbul, there are many places for travel and visit. These are lots of historical, natural places in Istanbul. You can taste different cuisine and buy souvenirs from bazaars. You should definitely see Blue Mosque, Hagia Sophia, Galata Tower, Topkapı Palace, Maiden's Tower, Karagücü, Piyerlekli, Beykafa, Şile, Beyoğlu and Grand Bazaar and Istanbul is worth seeing.

**MY TRIP TO GREECE**

When I go to Greece

- I will go to parthenon
- I will visit the Acropolis of Athens
- I will visit Saronic island
- I'm going to eat Greek

**My trip to France** When I go there

**My trip to France** When I go there

- I will go to Disneyland, to visit the Disney City
- I will go to the Louvre and see the Mona Lisa
- I will go to the Eiffel Tower and see the beautiful view
- I will go to the beach
- I will visit Chateau Versailles
- I will go to the Louvre Museum of art
- I will do a little road trip to visit small cities

# PETRA, THE ROSE CITY

## by Jordan Team

---

**P**etra is an ancient city that lies in present-day Jordan and dates back to the fourth century B.C. Ruins of the once-great metropolis and trading center now serve as an important archeologic site and tourist attraction.

**Petra has also been referred to as the “Rose City” because of the color of the stones used in its buildings. It was named a UNESCO World Heritage Site in 1985.**

Where Is Petra? Petra is located about 150 miles south of both Jerusalem and Amman, the capital of Jordan, and about midway between Damascus, Syria, and the Red Sea, making it ideally suited as a hub of commerce in the area. The site is considered significant by historians and archeologists alike because of its beautiful rock-cut architecture and innovative water management system, the latter of which made the region inhabitable, given that it is surrounded by desert and rugged, mountainous terrain.

The city of Petra was established as a trading post by the Nabateans, an Arab Bedouin tribe indigenous to the region in what is now southwestern Jordan. The Nabateans living and trading in Petra soon accumulated a significant amount of wealth, and an envious Greek Empire attacked the city in 312 B.C. This event marks the first reference to Petra in recorded history. The Nabateans successfully fought back the Greek invaders by taking advantage of the mountainous terrain surrounding the city. The mountains effectively served as a natural wall, buttressing Petra. However, the Greek incursion was not the last time the city would come under attack. In fact, the Romans would invade Petra in 106 A.D., and ultimately forced the Nabateans to surrender. The Roman Empire annexed the newly gained territory and changed its name to Arabia Petraea. They continued to rule over the city for more than 250 years until the middle of the fourth century A.D., when an earthquake destroyed many of its buildings. The Byzantines eventually took control of the region, and governed Petra for some 300 years.

Photo by Ahmad Atwah

Although no longer an important city, Petra has been noted by historians and archeologists for its unique architecture as well as a specific innovation made by the Nabatean Bedouins that established the city. Given the rugged, mountainous terrain that surrounds it, Petra wouldn't seem like a logical place to build a city. However, the Nabateans took advantage of this geography as they erected its key structures. Using an early form of the technique known as rock-cut architecture, the Nabateans literally carved several of the city's buildings out of the surrounding stone surfaces. As the Nabatean culture evolved, and as the Romans and the Byzantines later sought to leave their own marks on the city, the architecture of Petra began to take on a mix of the different cultures that occupied it. Large and ornate tombs built by the Nabateans eventually gave way to Christian churches constructed by the Byzantines, who considered Petra the capital of the province of Palaestina. During this evolution, while the Romans ruled the city after the Nabateans and before the Byzantines, the Petra Roman Road was built. This served as the main thoroughfare of Petra, and ornate gates were built, in Roman style, to mark the entrance to the city. However, the Nabateans' influence over the city's design and structure was not completely eliminated by its subsequent rulers.

## **PETRA by Jordan Team**

## In the early 2000s, the site was named one of the “Seven New Wonders of the World,”

Water Harvesting As desert dwellers, the Nabateans had long struggled during seasons in which rainfall in the region was limited. When the tribe built Petra, though, they developed a unique system of conduits, dams and cisterns to harvest, store and distribute rainwater for year-round use. At certain times of year, the area around the city was prone to flooding. However, the Nabateans were able to effectively control these floods using dams and, therefore, the city’s water supply. This meant that they could reside in the city even during periods of drought. It also improved the crop yields of Nabatean farmers. Petra Today After the eighth century, when Petra was largely abandoned as a trading center, its stone structures were used for shelter by nomadic shepherds for several centuries. Then, in 1812, the unique ruins of Petra were “discovered” by Swiss explorer Johann Ludwig Burckhardt. He described the ruins of the once-great city in chronicles of his travels. With the western world now aware of their existence, they soon attracted the interest of architects and scholars, among others. Starting in 1929, British archaeologists Agnes Conway and George Horsfield, as well as scholars Tawfiq Canaan and Ditlef Nielsen, launched a formal

to excavate and survey Petra. Numerous findings have been made in the decades since, including the 1993 discovery of Greek scrolls dating to the Byzantine period as well as the more recent documentation via satellite imaging of a previously unknown monumental structure buried beneath the sands of the area. When Petra was named a UNESCO World Heritage Site in 1985, Petra Bedouin tribespeople who had made homes for themselves within the city’s remaining ruins were forcibly relocated by the Jordanian government. In the early 2000s, the site was named one of the “Seven New Wonders of the World,” leading to a spike in tourism. Since then, efforts have been made to protect the ruins of Petra from heavy tourism, as well as damage from floods, rain and other environmental factors.

Many festivities parades with costumes and kite flying are very popular this season.

Collage of creations by B2 ICT class about "Greek Carnival"

## Special Festivity in Greece: The carnival

The carnival is called "Apokries" in Greece and it takes place in late winter over a three-week period and dancing before Lent Monday. The exact dates of the Carnival vary, depending on Easter. Actually the Carnival finishes 7 weeks before Easter. Important carnival Parades take place in Patras, Xanthi, Corfu island and Rethymno with wonderful floats.  
Athina Tsorou, Petroupoli, Greece

## Some Greek Easter traditions

### 1. The Easter lamb

The Easter lamb is one of the most famous dishes in the Greek tradition. We eat it on Easter Sunday starting its preparation and grilling it over coal-fire since very early in the morning.

There all the family members gather to help and enjoy it after.

We eat it with potatoes, rice, salad and kokoretsi and hard-boiled eggs. We drink soft drinks, wine

or beer.

Every year I can't wait the moment that I to taste this mouthwatering delicious this beauty of nature.

### 2. ROCKET WAR

Rocket war is a custom observed every Easter in Chios. The two rival parishes, St. Marks and Panagia Evittiani, launch thousands of improvised rockets on the bell tower of the opposing church on Saturday night, cheating a unique spectacle. The next morning, the number of rockets found at each belfry is counted to determine the winner. A few days before, the buildings of the two churches and the neighboring houses were covered with a protective metal mesh. The origin of the custom of rocket war is not clear, but it is believed to have begun during the Turkish occupation. According to traditions, cannons were originally used for celebration of Easter. When the Turks banned the cannons, fearing they might be used against them, the locals replaced them with improvised rockets. Rockets war continues nowadays every Easter but with increased protection measures.

**EASTER IN GREECE  
ROUKETOPOLEMOS  
IN CHIOS ISLAND**

Rouketopolemos is the name of a local traditional event held annually at Easter in the town of Vrontados on the Greek island of Chios.

STAVRIANNA

## Easter custom in Corfu

Xenou Lydia

## ◀ Botides in Corfu

Corfiots mark Holy Saturday with a strange old custom referred to as the “botides” – where large clay jugs filled with water are thrown from the balconies of homes in the center of town, smashing into pieces onto the streets below as thousands gather around to watch. The custom of the artificial ‘earthquake’ re-enacts the earthquake that followed Christ’s Resurrection.

**Without this special candle ▶  
we can not think of a Greek Easter**

Everyone in Greece has a lambada -a special decorated candle- for the Easter ceremony at church on Saturday midnight.

## EASTER IN GREECE LABADA-Easter candle

In Greece the custom is that godmother in Easter buys a special candle for the kids that they use it during Easter Saturday. These candles are special decorated

## EASTER IN Greece EPITAPHIOS

The Epitaphios is a Christian religious icon typically consisting of a large, embroidered and often richly adorned cloth, bearing an image of the dead body of Christ, often accompanied by his mother and other figures, following the Gospel account. It is used during the liturgical services of Good Friday and Holy Saturday in the Eastern Orthodox Churches, as well as those Eastern Catholic Churches, which follow the Byzantine Rite. It also exists in painted or mosaic form, on wall or panel.

Athina Tsorou

## ◀ Epitaphios on Good Friday

The most impressive case is that of some coastal towns, most notably on the islands of Hydra and Tinos in our Aegean sea, where the men carrying the Epitaphios reach the beach and march right into the sea, until they are at least waist-deep in water, where they may remain for several minutes, often holding the platform high to protect it. During this time, prayers are said for the welfare and safe return of the many seafarers coming from those communities.

**In 2020 the Greek Easter ▶  
is on 19 April**

Religious festivals with centuries-old traditions and customs take place throughout the year in Greece and Orthodox Easter is one of the greatest such celebrations. Greeks follow the Holy Week rites in commemoration of the Passion of Christ and celebrate His Resurrection on Easter Sunday. Easter in Greece is amazing! Very beautiful! You are welcome to experience it with us!

## The history of Croatia by -Laura Klajn 6.b

The Balkans were crossroads divided to the Latin west and Greek east by the Roman Empire. The Roman Empire collapsed in 476. Croatia was a part of the Latin sphere so they became of a Catholic faith and all the other Balkan countries were a part of the Orthodox eastern part. Croatia became a kingdom in 925. One of our kings named Steven the First was captured by a Venician. He played a game of chess for his freedom which is just one of many legends about Croatia. The Trpimirović dynasty ruled until the death of Steven II leading to The King of Hungary to be the next ruler of Croatia.

This introduced feudalism which benefited the 12 noble tribes that ruled the various counties with local autonomy. Although just a constituent kingdom of Croatia was actually ruled by a "ban". The dalmatian city states were made up of romanized refugees who fled to the coast from the Slavs centuries earlier and set up their own independent territories that thrived on trade with Italy. One of these cities came to particular prominence and was named "The Republic of Ragusa" (Dubrovačka Republika). It was commercially very rich until it got under the Napoleon's Empire.

# The history of Croatia by -Laura Klajn 6.b

The Croatian dynasty passed on the Angevin dynasty. The Byzantine Empire collapsed on all sides due to a new threat- the Ottomans. The Croats fought them bravely but sadly they were defeated in 1493 and 1526. We had to turn for help. Hungary and Croatia elected Ferdinand as their King. The Habsburgs and their allies in Vienna 1529 fought the Ottoman Turks. Almost all of Croatia was returned to the Habsburgs. Venicia was defeated in the Napoleonic wars by the French so the coastline was given back to Croatia but we were still under the Habsburg rule and it was about to get messy. Nationalism was spread in Croatia and even more broadly the Yugoslavian nationalists. After the revolutions of 1848 the Habsburg empire turned into a dual monarchy. Austrians attacked Bosnia and annexed it, spreading

through Europe like a wildfire. Croatia was swept up in Croatian nationalism and even more broadly the Yugoslavian nationalists. After the revolutions of 1848 the Habsburg empire turned into a dual monarchy. Austrians attacked Bosnia and annexed it. Yugoslavian nationalists were furious so the Balkan war started. Nobody was happy in it. It was depressing and sad to every country. Nobody was satisfied. A young Yugoslavian terrorist group was formed and it was named Young Bosnia. It assassinated the Austrian Archduke in Sarajevo in 1914. WW1 started. Austria-Hungary started collapsing in 1918. A new state named the Kingdom of Yugoslavia was formed. The Croats and Serbs didn't get along. During WW2 Germany and their allies annexed Yugoslavia. The state was stable under the reign of Josip Broz Tito, but he made Yugoslavia stable but not for long.

He died in 1980 and that's where Yugoslavia started collapsing. Croatia wanted to be independent and left Yugoslavia. Serbia wasn't very happy so they attacked Croatia in 1991. Croatia and Serbia were furious at each other. Thousands of innocent people died. The war ended in 1995 when Croatia took back all its territories and became independent. There are still some quarrels and disagreement between the two governments, but I hope they will end one day and we will become really good neighbours.

# Romanian Myths and Legends

**The Legendary Baba Dochia** - The return of spring Baba Dochia (baba=old woman, in Romanian), a legendary figure of Romanian folklore, is connected with the arrival of spring, and it is perhaps one of the most well-known figures of Romanian mythology. Some sources say she is the mother of Dragobete, while others claim that Dochia was the daughter of the legendary Dacian king, Decebalus., the brave Dacians being the Romanians' ancestors. The daughter of Decebal is said to have thrown herself off a steep rock to avoid being captured by the Roman emperor Traian when the latter defeated her father. Even today, that mountain rock wears the Dacian princess' name and tourists can admire it on their way to Ceahlau Peak, in the Carpathian mountains.

## History of Dracula

The myth of Dracula is connected to Vlad the Impaler, who was the leader of Transylvania ( a Romanian historical province) and one of the fiercest enemies of the Ottoman Empire. Stories of his cruelty rapidly spread throughout Europe. In Romanian history, he is known as Vlad Țepeș, and he is called "the Impaler" because his favorite method of execution was impalement. The name of Dracula has its origin in his father's name, Vlad Dracul. (in Romanian drac means devil) All these stories made Vlad one of the best-known Romanian medieval rulers, but when Bram Stoker's Dracula was published, a connection was made for the first time between Vlad Dracula and vampirism. Thus, the famous Count who Bram Stoker initially named Count Vampyr came into existence under the name of Dracula. But contrary to popular belief, Bram Stoker had little knowledge of Vlad Țepeș. (i.e. Vlad the Impaler)

Portrait of Vlad the Impaler. Photo source: Wikipedia

**The Ballad of Miorita** – the defining Romanian myth. The Miorita ballad, is perhaps, the most eloquent Romanian folk poem ever created, summing up the most important beliefs of this nation. The poem is proof of the strong connection between man and nature in the Romanian people, and it inspired countless artists and poets throughout the years. This rhyme ballad has a very simple yet, profound story. Three shepherds from three regions of Romania – Moldavia, Wallachia, and Transylvania (Romanian historical provinces) – are going with their sheep in the mountains. The Moldavian Shepherd is though, wealthier, so the others, full of envy, come with a plan to kill him and steal his flock. But Miorita, the most faithful ewe of the Moldavian Shepherd, hears the plan and prevents her master (Miorita = the Romanian diminutive for ewe). The conversation between them is very emotional. Miorita asks the shepherd to take immediate measures to protect himself, but the shepherd does not do so. His reaction is rather intriguing. Death doesn't seem to scare him, in fact, he is willing to accept whatever will happen.

**Sanziene** – the Summer Fairies. The Sanziene are, together with Fates, mysterious fairies with magical powers that bless people and animals, strengthen marriages, and heal people. Their holiday is celebrated on the 24th of June each year, and it is filled with specific rituals, mainly focused on love and marriage.

**Latest news about coronavirus**

**W**orld Health Organization informed people about the coronavirus. Please click.

**Coronavirus spreads when an infected person coughs small droplets - packed with the virus - into the air. These can be breathed in, or cause an infection if you touch a surface they have landed on, then your eyes, nose or mouth.**

**CORONAVIRUS THOUGHTS World Investigation**

# Students from different countries express their feelings during coronavirus crisis.

I think this situation is weird because nobody expected that it would go this far. Student did not expect that they will not go in school and teachers did not expect that they will teach students through the internet . I am really curious that how long will this virus exist and when we will go back to school . I am most curious about how will the world be after it ends if we are gonna back to normal or if something changes . I am curious too about what will happen with our final exam and how will the rest of the school year go . But I think that this situation will open eyes to some people and they will realize how important is our health and I think that lot of people will be more hygienic after this . the funniest thing is that this month the world pollution decreased by 60% because a lot of actories were closed and people don't drive their cars that much . But most importantly I hope that it ends soon and we can go back to normal .

**S. Szolloszy SLOVAKIA**

Even though we are in a situation like this right now, I don't think you need to panic. As long as you stay at home, don't meet with other people and wash your hands frequently, there's little

chance for you to get infected (at least in my opinion). Some people buy enormous amounts of flour, toilet paper, cleaning supplies and disinfection gels. Yes, of course, it's important to buy those things, but not that much! Just the essentials. At least, there are plenty of activities you can do even in quarantine. You can go hiking, or just for a walk and enjoy the nature. Fresh air is good for you. Or you can enjoy some time for yourself. Read a book, listen to music and relax. Or just watch a movie (with a large bowl of popcorn<sup>☺</sup> ). For the more artsy people out there, paint or draw something! You have time for your fantasy to flow. There are people who like sport too. Well, you have plenty of options! Running, riding the bike, skating ... Those are all activities that you can do outside! And for gamers? Games, of course! There are a lot of them on the internet. Spending time at home is good for spending more time with your family, too! Baking cookies, watching movies pr playing with your siblings are all good activities. So use the time that you have wisely! And don't forget to learn too!

**Noemi Kuštárová, SLOVAKIA**

## Preventive action against coronavirus

**What I think about Covid-19** The people all over the world have to cope with this horrible pandemics. It bothers me most when our politicians have time to argue now. But I have to appreciate that in Slovakia they have tried to prevent the spread of the virus immediately. Unfortunately, I still hear about the people who don't care. Finally I hope that this virus end as soon as possible

• **Marek from Slovakia**

**VIDEO BY BANA, JORDAN**

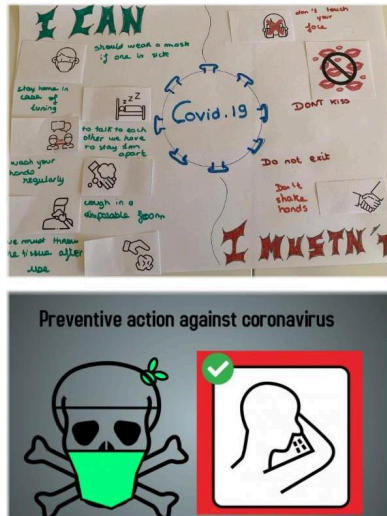

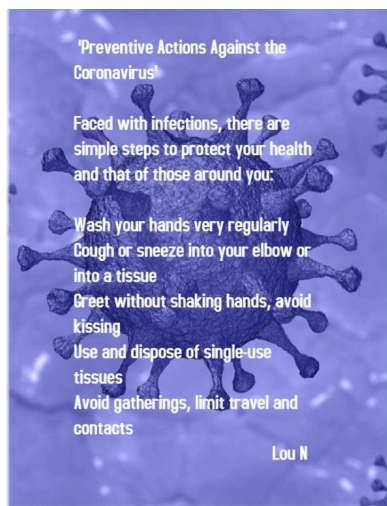

**We realize what really matters and how beautiful the world we live in is. People are singing to each other across the empty squares, with their windows widely open so that those who are alone can have a family around them. The world has changed for the better. After so many years of noise you can hear the birds again. After just a few weeks of quiet the sky is no longer thick with fumes but blue and bright and clear. Yes, there is fear, panic, death but even more there is love, empathy and kindness.  
Sincerely, Andreea Stuck at home  
ROMANIA**

**To be honest, I feel terrible these days. I'm in a very different mood. Neverthelss, I'm reading books,? studying for my lessons?? and playing games or doing activities with my brother. I'm aldı watching TV. Of course; I'm doing my best to obey the follwing rules Wear your mask? Wear your gloves ? Don't hug anybody?♀? Wash your hands I know it's a depressing and very diffucult situation but ???STAY AT HOME???**  
**I'm Nisa Nur ÖZLÜ TURKEY**

**Hello guys I will talk about my corona virus days. during these days i must stay at home, I can't go to school because they are closed. in Italy there are very strict rules: I mustn't touch our eyes or nose or mouth. I have time to practice my hobbies for example dancing ?, play guitar?and train whit my dad; I try to use the time i have to do some activities that I couldn't do before for example cooking and tidy my room.? love Federico ITALY**

**About online learning :  
You can work at the time you want and it is easier to concentrate and work better and quietly at home...  
When you are tired you can stop for a while and go back to work later but for me ,it's difficult to use the computer. ..The disadvantage of online learning is that you can't get your teacher's help. I don't really like working at home, we are less overloaded by school work but we have trouble following all the lessons and doing all the homework. I can't understand everything and at home there is noone to give me enough explanations and instructions. For me, online learning is a synonym for boredom and loneliness. It is like jail..  
Joseph Calvet students FRANCE**

The history will witness a unique cooperation among humans despite differences, wars and conflicts. Let us say that the coronavirus will correct some or a lot of our ideas, and teach us lessons about how to live in peace and respect each other. Every day in these thirty days in which we were in the lockdown. I start my day with a positive idea away from the storm of the bad news about the epidemic in order to maintain my mental health. In addition, we are having the national exam in June, as are millions of other  
**AMINE , MOROCCO**

**POSTERS BY FRENCH STUDENTS**

I have asked my pupils the following questions and here are their answers:  
 1. At first, during the quarantine I felt scared of corona but happy and excited because I was never n online learning! But, over time I realized that virtual school is so much harder then real school and my happiness was gone! Sometimes I feel bored, sometimes I miss my friends and my cousin who lives far away... When I realized that corona is slowly disappearing my fear was gone. Over time shops and pubs opened again, and pupils went back to school! But older pupils didn't go back! I don't know why?! I am so angry and frustrated!! I can't believe I'm saying this but I want to go back to real school!!!  
 2. Of all the persons I miss my cousin most, but of things that I miss most is... (you won't believe this!) school!  
 3. Good sides of online learning is that...well...I think there' are no good sides actually, but I will try. Good sides: Probably there is just one good side... that is that we learn how to learn by ourself! That's it! Now bad sides: There are many bad sides! Like we have much less free time then we have in real school. Probably because some teachers give us too much homework! Besides, excessive screen using is not good at all! Especially for children who have eye problems (like me). Online school isn't good for children who have problems with learning on their own.  
 By ELENA KRSTEVSKI, CROATIA

**MY EXPERIENCE DURING THE LOCKDOWN**

When quarantine began I knew it was the right time to indulge in my hobbies or even begin a new one. So, I took advantage of the time I had and I started going cycling. It was a new experience, because I usually didn't have enough time to do that kind of a fun activity. The covid-19 outbreak, which temporarily shuttered many of my favorite places, made me realize how much I took my social life for granted. My closest friends, whom I used to regularly visit, were rightfully practicing social distancing. For us, this means only connecting through our phones. Because of that, I had the opportunity to spend more time and come closer with my family in order to create a really strong bond. As far as online lessons are concerned, it took everyone a little time to get used of them, but in the end they turned out to be a great solution. To sum up, during the coronavirus lockdown I learned to appreciate little things and also to enjoy each and every moment .  
 By Dimitra, Greece ARSAKEIO  
 I found the quarantine pretty boring but it has helped me gain a lot of knowledge and helped me improve on my skills in many different areas. I have also learnt to appreciate the value of friendships.  
 By Michael . GREECE ARSAKEIO

## COVID 19 : How Will It Go?

How it has affected our lives so far and what we can do to stay safe and prevent it.-

### **Kim, Yunjoo**

Koreans have to always wear masks because of COVID 19.

Also, I am in the middle of studying online without going to school. The way to stay healthy is to wash your hands often. Online studying is to take classes by subject to subjects and do homework. classes online . But I didn't have to get up early. And the class ended earlier than usual.

### **Lee, Haewon**

COVID 19 is spreading around the world, and a lot of people's main priority is to stay healthy during this pandemic. These are a few tips that can help avoid the virus. First, wash your hands. After coming home you should always wash your hands with soap for at least 30 seconds. Using soap is crucial for cleaning all of the bacteria. Bacteria can get into the body even when you rub your eyes or nose. Secondly, wear a mask. When you or somebody sneezes, the saliva can fly a long

### **Shin, Seoyoung**

When I received the disaster text, I became increasingly anxious because it was a matter of COVID 19 every day. Now people without wearing mask look strange . Some businesses don't accept customers who don't wear masks. I'm so sad that I can't go to school even though I'm in the same class with my close friends. I wear a mask every day when I have to go out. I do hand sanitize whenever a hand sanitizer is seen. I wore a mask at home when I had suspicious symptoms, I didn't allow anyone enter my room. Stay as far apart as possible when facing people who are not wearing masks. I had a big problem with the Internet because I had

### **Cha, Seohyun**

Changes in our lives caused by COVID 19

Because I don't go to school, I don't need time to go to school, so I can sleep more.

I try not to go out as much as I can.

So I don't meet many friends.

Our online classes is about watching movie clips on EBS and working on workbooks, and it seems like a school class.

The online classes seem like to actually take classes at school.

# Remote learning, our lives at home and how we have been so far.

## **Choi Seung-hee**

In order to stay healthy in daily life, you have to wear a mask when you go outside. And you'd better not go to crowded places. Our online classes are conducted through a program called "ebs online class." Thanks to the efforts of the teachers and students, the classes are going smoothly.

## **Kwon, Hyerin**

COVID19 changed a lot of things. First, in South Korea, we use various platforms to do the on-line classes. Some schools use video chatting but in my school, we watch videos after teachers upload them.

Second, I think we wash our hands more often to keep ourselves in good health. Lastly, Air pollution is improved by social distancing, In many country, quantity of fine dust is decreased.

## **Hwang, Bowon**

I think Covid-19 made nature clean and better than before. I saw the news that the sea becomes clean because people don't go to the sea. Also, I always have a cold in at this time of year, but I didn't have a cold this time. I think the reason I didn't get a cold is that I wear a mask. So I think Covid-19 has a good effect on us.

## **Lee, Ga-eun**

We have to wear masks because of Covid 19. Also, I have a class without meeting my friends and teachers. Many say they want to go back to their daily lives, but it will be difficult to go back to their daily lives. But seeing so many people fighting against this Covid 19 seems to make us feel much more hopeful.

## **Kim,Seoyun**

By COVID 19 our life have been changed a lot. We have to wear mask everywhere and wash our hand when we came back from outside. We have very hard time right now but our small effort can make situation better. Let's try a little harder and get through it ! ?

▶ Playing the French game for the sports online (a student had shared his screen as teacher's bandwidth had problems)

Playing games and following project's activities in our eTwinning "world" had help very much

▶ In the beginning there were difficulties in using the online asynchronous class even for those that had the access and the devices

So our first online meetings were about the use of the platform

▶ Online lessons were a challenge for the teacher as well. Especially in time management issues and on bandwidth as her family had the need of the wifi at the same hours.

Gradually, we have started getting used to it and the first "frameworks" were uploaded in the platform

HOW GLOBAL ARE YOU ? (20 questions by project members from Greece, Italy, Ukraine, France, Korea, Morocco, Romania, Turkey ,Jordan,Slovakia .)

**<-- ARE YOU AFRAID OF THE UNKNOWN ?  
( red: no/ blue: yes)**

**Our survey 3 is online .**

You can still answer the 20 questions suggested by the project partners !

**( click on the link).**

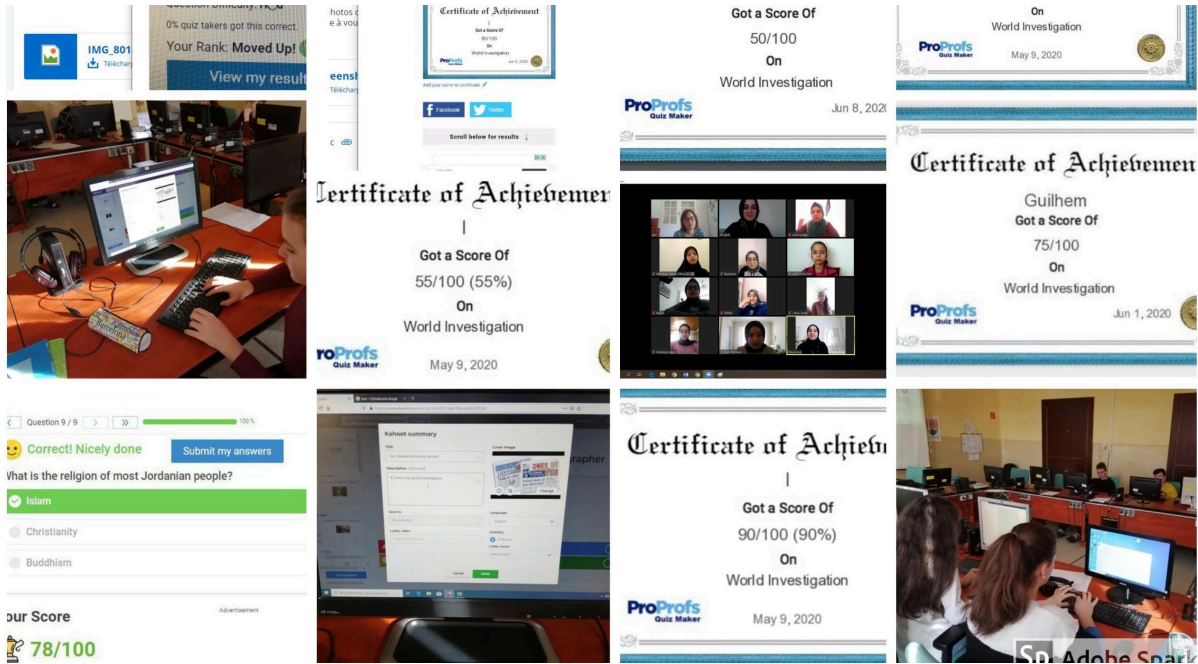

**Some examples of questions:**

How many languages do you speak ? Do you like travelling? Do you keep up with the worldwide news ? Do you like tasting foreign food ? Do you support ONLY your national team?

**World Investigation survey 3 How global are you ?**

# Online quizzes are a fun way to learn !

**Some of our students completed the quizzes and they got their certificates! Well done!**

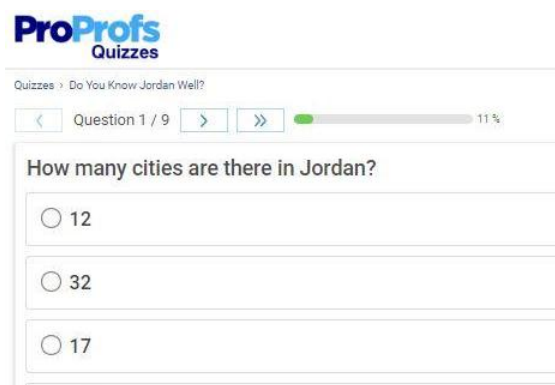

**TRY THESE GAMES! World Investigation quiz (Turkey) Kahoot on our collaborative story and Kahoot on media vocabulary (Slovak students) Quiz (Jordan)**

**Our multilingual media dictionary - kahoot quiz**

**Collaborative story**

# PROJECT EVALUATION

**Mentimeter**

Please Evaluate your experience in our project ( 1st is the lowest and 5th is the highest grade) in the following aspects:

- I have expressed myself creatively (writing-drawing-art) 

1 Strongly disagree ————— 5 Strongly agree
- I have improved in writing in a foreign language ( English) 

1 Strongly disagree ————— 5 Strongly agree
- I really enjoyed while doing activities 

1 Strongly disagree ————— 5 Strongly agree

Other survey screenshots include: "Evaluation by petroupoli, greece", "Evaluation by in quaran Sancaktepe Abdurrahmang Hatip Ortaokul", and a "Thank you for your participation!" message.

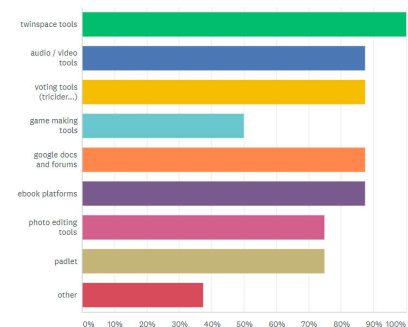

## STUDENTS AND TEACHERS EVALUATE THE PROJECT

Our students completed the survey On Mentimeter. Results above . Teachers evaluate the project on SurveyMonkey. Results below.

Which digital / web2.0 tools did you use?

Answered: 8 Skipped: 2

How did you communicate with the other teachers? You can tick seven answers.

Answered: 10 Skipped: 0

## Project evaluations for teachers and students
